## COMPUTER ENGINEER'26

Motivated Student pursuing Computer Engineering degree at MMIT with an average 8.3 CGPA. Seeking opportunity to build a career in Cybersecurity. Willing to take on any task to enhance my skills. My hobbies include Bharatnatyam dance, playing the guitar, and trekking.

---

## PROJECTS

### BLUETOOTH BASED ATTENDANCE TRACKING SYSTEM

A web based student attendance monitoring system including teacher and student portals for simple and quick attendance marking and efficient lecture time management. Every student logs into their account using personal credentials, and marks attendance for active course in the Bluetooth range of classroom.

---

### LIBRARY MANAGEMENT SYSTEM USING SQL

An implementation of MySQL skills to create a library management portal where student can check available books, add or remove books, view and edit staff details, and edit the portal admins. This project is done in Java using Apache NetBeans and JDBC connector for the MySQL implementation.

---

### AUTOMATED ANSWER EVALUATOR INTERFACE USING HTML-CSS

A subjective paper checking interface, where student uploads their answers which gets evaluated against the model answer previously uploaded by the teacher. The interface provides history of student grades with remarks by the teachers in each subject.
